- Half a year after the internship ended, I was invited by the mentor for a financing project for a structured light 3D scanner camera module manufacturer, and a year later, I was invited again to his start-up digital currency investment company

PROJECTS

Diamondlised Gold Factory Investment 2023.03 – 2023.08

- Inspired by the current controversies in the diamond-made jewellery market, that high material waste rate, high premium, low recycling value and undefined pricing mechanism, combined with the predominant trend of gold products in the jewellery market, I invested in a factory which focused on the production of diamondlised gold (turn gold's appearance into a diamond). Currently, there are 70 employees in the factory carrying the regular production, and the goods have been served for famous jewellery brands such as **Chow Tai Fook**, **Lao Feng Xiang**, and **Chow Tai Seng**, also supply to some major diamond wholesalers such as XGD Jewellery
